

Public Contracts Review Board

Case No 1743 – CFT 020 -1087/21 – CPSU3551/21- Automated Filling Sets and High-Pressure Patient Connecting Lines

The Board refers to the two sittings held on 5th June and the 12th July 2022 in regard to the above tender. At the last mentioned hearing the Board adjourned the sitting to the 4th August 2022 to enable the Appellant time to study the technical literature provided.

The Contracting Authority (CPSU) has meanwhile advised the Board that it is prepared to re-evaluate the tender by a newly appointed Evaluation Committee. Since this meets the request by Appellant in its letter of the 9th May 2022, the Board accedes to the request of the CPSU and is hereby directing that a freshly composed Evaluation Committee be appointed to re-evaluate all bids received and to conclude this evaluation by the 5th September 2022.

Under the circumstances, this Board recommends that the deposit paid by the Appellant, when filing the objection, will be reimbursed.
